

Making Molecules

- 1) Make the following molecules using the molecular model kits following the colour guide.
- 2) Draw the molecules using balls, sticks and colour.

<p>1. Oxygen $O_2(g)$</p>	<p>2. $CO_2(g)$</p>
 <p>O atoms need 2 bonds</p>	 <p>C atoms need 4 bonds</p>
<p>3. Hydrogen Peroxide $H_2O_2(l)$</p>	<p>4. Acetic Acid $CH_3COOH(l)$</p>
 <p>H atoms need 1 bond</p>	
<p>5. Water $H_2O(l)$</p>	<p>6. Methane $CH_4(g)$</p>
